

Summary: BLM Law Enforcement Unable to Account for Gift Cards

Report Date: March 19, 2018

Report Number: 17-0820

The OIG initiated an investigation after an inventory of a safe located in the Bureau of Land Management's (BLM's) Office of Law Enforcement and Security (OLES), found that thousands of dollars in gift cards were unaccounted for.

We found 119 gift cards in the safe, valued at \$2,345, and property receipts that indicated more than \$10,000 in gift cards had been provided to a former OLES official and another BLM employee to use towards official purchases. We were unable to determine the disposition of the remaining gift cards because there was no documentation, and the former OLES official and the other BLM employees we interviewed did not recall how the gift cards were disposed of.

This is a summary of a report of investigation that we provided to the BLM Director.
